Summary

A highly skilled developer with a strong focus on frontend development and Solidity smart contracts. Extensive experience in building scalable and responsive web applications using React and Tailwind CSS, alongside secure DeFi solutions on Ethereum. Known for delivering innovative solutions to complex problems.

Experience

- Frontend Developer (Freelance) 4 years**Jan 2021 – Present
 - Delivered over 30 responsive web applications, ensuring compatibility across devices and platforms.
 - Leveraged modern frameworks like React and Tailwind CSS to create visually appealing interfaces.
 - Collaborated with clients to define project requirements and ensure timely delivery of solutions.
 - Implemented state management systems using Redux for dynamic and complex UI workflows.
 - Designed optimized user interfaces, improving user engagement and retention rates.
- Solidity/JavaScript Developer Intern**Sept 2024 – Nov 2024
 - Developed and deployed secure smart contracts on Ethereum for stablecoin projects.
 - Integrated blockchain functionality into decentralized applications (dApps).
 - Assisted in optimizing smart contract gas efficiency and ensuring audit compliance.
 - Conducted thorough testing and debugging of contracts using Hardhat.
 - Collaborated on stablecoin architecture, incorporating robust financial models.

Projects

- LydiaStablecoin Development**2024
 - Designed a stablecoin algorithmically pegged to gold (80%), silver (10%), and platinum (10%).
 - Integrated Chainlink price oracles for real-time asset valuation.
 - Implemented features like lending services, transaction fees, and a secure mint/burn mechanism.
 - Enhanced reliability with advanced security measures, including reentrancy guard and pausable functionality.
 - Achieved a transaction fee of 1% and an annual loan interest rate of 5%, ensuring financial sustainability.
- Relocation React App**2023
 - Developed a React-based application to assist users in managing relocation tasks.
 - Features include customizable dashboards, task management, and location insights.
 - Integrated APIs for local service providers and resource aggregation.
 - Designed an intuitive user interface using Tailwind CSS for seamless user experience.
- Book Rental App**2022
 - Created a comprehensive platform for renting books, enabling users to manage rentals efficiently.
 - Designed a sleek and responsive interface with Tailwind CSS, ensuring accessibility across devices.
 - Implemented real-time search and filter functionalities to enhance user experience.
 - Technologies used: React, Tailwind CSS, Node.js.

Technical	Skills
Languages: HTML, CSS, JavaScript, React, Tailwind CSS, Python, Solidity Tools: Hardhat, TensorFlow, Pandas, NumPy, Redux	

Education

- Guru Gobind Singh College, Maharashtra, India**Aug 2018 – May 2021

Diploma of Mechanical Engineering

Certificates

- Frontend Development, Family Computers Doha Qatar**2024
